Importance: High

Please let me know right away if my assumption is incorrect. I assumed you were okay with the

plan based on my conversation with Ben and that I did not hear back from Mary after my voice message.

Thanks, Freya

Hi Kirby.

I am fine with your plan for continued support for the West Lake Landfill. I'm assuming that Ben and Mary are also fine with Skeo's plan for continuing technical assistance for the West Lake community.

Thanks, Freya

Hi All,

I just wanted to check in and see if you have any questions on this work plan or if we need to revise it based on the task order revised statement of work that Skeo received this week.

Thanks,

Kirby

Hi Freya, Tina and Ben,

Attached please find a drafted work plan for TASC assistance at the West Lake Landfill for the next 6 months. As you probably remember, the TD was written for one year of assistance and we drafted our first work plan for six months, through May 2014.

We have made a lot of progress in establishing a trusting relationship with community members impacted by the West Lake Landfill and they seem very appreciative of the assistance we have provided them so far. Please don't hesitate to let us know if you have any questions or concerns about this work plan, or if you approve the work that is outlined in it.

Best,

Kirby
